SUMMARY

Experienced software engineer with a demonstrated history of working in supply chain management of the food & beverages industry and a focus on inventory control and material handling control systems. Skilled in Java, Angular, and SQL. Strong engineering professional, graduated from Ferris State University.

EXPERIENCE

Associate Software Engineer
Gordon Food Service | IT Warehouse Team   **March 2016 - Present, Grand Rapids, MI**
· Working with the IT Warehouse team, I have helped develop and support the warehouse management system.
· Subject matter expert on Inventory Control and Material Handling Control Systems.
· On a team of 14 people I played a big part in the most recent warehouse project where we created and deployed a new Angular app to replace old telnet devices in the warehouses.
· Updated and revamped software used throughout the entire warehouse for receiving, selection, inventory control, and shipping.
· Completed 22% of the 200+ bugs that came in over the 10 month roll-out of the software to all warehouses.

Asset Administrator
Gordon Food Service (North American Asset Management Team)   **May 2015 - March 2016, Grand Rapids, MI**
· Automated the internal IT hardware & software PO request system using JavaScript, resulting in faster throughput for PO requests.
· Awarded the Gordon Food Service J&P Cup award, a yearly award given to one of the IT teams.
· Implemented field validation for forms to make sure the user had all the information needed, based on their specific requests.
· Added the ability for an Asset Administrator on the team to generate a PO number, save as a PDF, and store the request in the proper folder with a click of a button.

Sales Associate
Gordon Food Service   **September 2013 - May 2015, Grand Rapids, MI**
· Working at a Gordon Food Service Retail Store in Grand Rapids, MI.
· I showed my work ethic and made connections that eventually got me a position in the corporate office as a Software Engineer more than a year before getting my degree.

EDUCATION

Bachelor of Science in Digital Media Software Engineering
Ferris State University · Grand Rapids, MI · 2017

ACCOMPLISHMENTS

5x Ferris State University College of Education & Human Services Dean's List of Scholars | 2014 – 2017
· Awarded honor roll due to high academic achievement

Gordon Food Service J&P Cup Winner | 2015 | North American Asset Management Team
· Awarded for work detailed in my role as an Asset Administrator with Gordon Food Service, automating and increasing throughput of PO Requests.
